Professional Summary

BSc in CSE graduate seeking the .NET Software Developer role. Hands-on experience building web applications using ASP.NET Core, C#, Entity Framework Core, and SQL Server with strong Object-Oriented Programming (OOP) principles. Skilled in authentication, database design, modular architecture, REST APIs, and clean code. Quick learner with good communication and analytical skills, eager to contribute to scalable SaaS products and grow in modern backend development.

Professional Experience

Ittransition Software Bangladesh Ltd.

June 2026 – August 2026

Software Development Intern

- Developed an end-to-end Talent Acquisition platform using ASP.NET Core MVC, C#, Entity Framework Core, and SQL Server with role-based access control and modular design.
- Implemented real-time communication using SignalR, CV generation with QuestPDF, and secure authentication & authorization using ASP.NET Identity.
- Built REST API integrations with Salesforce and Odoo for candidate export and position management.
- Performed debugging, testing, and code optimization while maintaining clean and maintainable code.

WearifyBD, Uttara, Dhaka

May 2024 – Feb 2025

Web Developer and Social Media Manager

- Supported development and maintenance of web applications using NopCommerce (ASP.NET Core MVC) for inventory and product management.
- Translated business requirements into technical solutions, resulting in a 35% increase in B2B lead generation.
- Optimized e-commerce features and SQL queries, reducing page load time.

Projects

- **Inventory Management System** (.NET 8, ASP.NET Core, EF Core, SQL Server) — N-Tier architecture with real-time stock tracking, complex SQL queries for reporting & operational analytics, and full web application development features.
- **E-Commerce Admin Panel** (.NET 8, ASP.NET Core, EF Core) — Built full CRUD operations, data processing, and reporting capabilities using N-Tier + Repository Pattern.
- **AcademicAssistant** (ASP.NET + SQL Server) — Full-featured web application with secure user authentication, dynamic newsfeed, and complete CRUD operations with strong emphasis on data consistency and reporting.

Technical Skills

Languages: C#, SQL, JavaScript, HTML, CSS

Backend: ASP.NET Core MVC, ASP.NET Core Web API, Entity Framework Core, LINQ, REST APIs

Architecture & Concepts: OOP, N-Tier, Repository Pattern, Clean Architecture, Database Design

Database: Microsoft SQL Server, SSMS, Stored Procedures

Frontend: HTML, CSS, Responsive Web Design

Tools & Others: Git, Visual Studio, Postman, Unit Testing (xUnit/NUnit), Docker (Familiar)

Education

Bachelor of Science in Computer Science and Engineering

Sep 2018 – Sep 2025

North South University, Dhaka
